---

Just wanted to introduce a new website we have created. <http://www.itabletennis.com> The website is geared to give the power back to the people! Users can submit table tennis news, club happenings, tournament info to the event calendar, equipment reviews, etc. We all can take part to mold this site, and share our knowledge of this wonderful game. So please take a look and sign up on the website today!

Tom

neat site, like the format and the openness to the community to add articles, reviews and all sorts of goodies.
