i have been playing table tennis since the 6th grade but only in back yards, recently in the past two years i have been trying to take it to the next level. I dont know how to locate a facility or a coach in southern California. Help with this would be truly appreciated.

This link will bring you to a list of Table Tennis clubs in California. I'm sure if you called around for a club near you, there is sure to be a coach who practices in the club.

There are certified USATT coaches in most of the cities. The California state has some excellent coaches. Are you in San Diego or Los Angeles area?
